Unit – 4 : Session – 4 : SLO – 1 | Tree Traversals — Pre-Order Traversal

■ I. Algorithm for Pre-Order Traversal (Root, Left, Right)

- Step 1: Repeat Steps 2 to 4 while TREE != NULL
- Step 2: Write TREE -> DATA
- Step 3: PREORDER(TREE -> LEFT)
- Step 4: PREORDER(TREE -> RIGHT)
- [END OF LOOP]
- Step 5: END

■ II. Pre-Order Traversal — Tree 1 (root 63)

- Tree structure: 63 -> left 26 (left 18 -> left 10, right 22; right 32 -> right 34); right 68 (right 82)
- Pre-order: 63, 26, 18, 10, 22, 32, 34, 68, 82

■ III. Pre-Order Traversal — Tree 2 (root 62)

- Tree structure: 62 -> left 39 (left 20; right 50 -> right 61); right 74 (left 62; right 84 -> right 95)
- Pre-order: 62, 39, 20, 50, 61, 74, 62, 84, 95
